

Patient Discovery Interviews

Wandsworth Community Adult Health Services has changed and Wandsworth Clinical Commissioning Group (CCG) would like you to get involved in reviewing these services for local people. This includes vital teams like district nursing, health visiting, therapies and a lot more.

What has been your experience of the health and social care you receive?

Do you have any suggestions for how we could improve local services?

One of the ways in which we are asking patients, carers and their families to help is by inviting them to participate in a patient discovery interview, which will be conducted with a member of staff from Wandsworth CCG.

Interviews will take place in your own home or at a place of your choosing.

The feedback you give will remain anonymous throughout the process.

If you would like to be involved in the interviews please contact:

Janice O'Brien
